# Secure Your Future with Security+ Certification

## CompTIA Security+

Expand your skills in one of the fastest-growing IT fields and become invaluable to your employer.

### HIGH DEMAND

With security threats ever increasing, you can enter a field where the need for security professionals and qualified IT personnel is the largest of any IT specialty.

### HIGHER SALARIES

Enjoy the rewards of your Security+ certified knowledge and skills. Some security specialists, architects and engineers earn over $86,000 a year.*

### VALUED CERTIFICATION

The U.S. Department of Defense values the Security+ certification so highly they include it in their 8570.01-M mandate.

### CAREER ADVANCEMENT

Security+ certification helps you advance toward a rewarding career in security and IT system administration.

### TRUSTED EXPERTISE

Security+ certification will turn you into an in-demand, trusted source for IT security issues in your organization.

### GLOBALLY RECOGNIZED

Security+ is an internationally recognized credential. Security+ certified professionals currently work in 147 countries throughout the world.

> "Because of Security+ I am cleared to work IT with the DoD. Security+ allowed me to get jobs and to continue to grow my career."
>
> CHARLES REEVES, SENIOR NETWORK SUPPORT, REDSTONE ARSENAL

**CompTIA Security+ certified professionals qualify for these careers:**

- Security Architect
- Security Engineer
- Security Consultant
- Security or Systems Administrator
- Information Assurance Technician

# Prove Yourself

The CompTIA Security+ certification exam includes *both multiple-choice and performance-based questions* that require you to perform in a simulated environment. The exam demonstrates your competency in network security, compliance and operation security, threats and vulnerabilities, application, data and host security, access control and identity management and cryptography.

### CompTIA Security+ CERTIFICATION EXAM

Earn your Security+ certification by passing the CompTIA Security+ certification exam:

- CompTIA Security+ SY0-401 measures knowledge of security best practices, tools, and procedures both to anticipate, and mitigate security incidents.

### GETTING CERTIFIED

To enjoy the rewards of Security+ certification:

1. Get prepared using the training option you prefer: Classroom, Books, E-Learning, Boot Camps, Practice Tests.

2. Locate a Pearson VUE testing center near you and take the Security+ exam.

*It is recommended that CompTIA Security+ candidates have CompTIA Network+ certification and at least two years of technical networking experience, with an emphasis on security.*
