Promotion Description

For a limited time, purchase a new Infiniium DSA/DSO 90000 X-Series Oscilloscope, DSO91304A or DSA91304A Oscilloscope to receive a complimentary Infiniium DSO9254A oscilloscope.

The Agilent Infiniium 90000 X-Series oscilloscopes are engineered for 33 GHz true analog bandwidth that delivers. By investing in a proprietary integrated circuit process, Agilent has enabled high-frequency capability while yielding the industry's lowest noise floor and jitter measurement floor, giving the 90000 X-Series true analog hardware performance to 33 GHz.

The Infiniium DSO/DSA91304A series boasts industry leading technology that allows for superior oscilloscope performance that goes beyond the specifications. Custom software to speed your measurement tasks can be fully integrated inside the oscilloscope application for seamless operation.

Agilent's Infiniium DSO9254A oscilloscope is engineered to give you the broadest measurement capability available to meet your needs both today and in the future with the power of 3 instruments in 1: oscilloscope, logic analyzer and protocol analyzer.
