

Aeroflex Special Promotions

ALT-8000 and GPSG-1000 Sales Promotion

Aeroflex is pleased to offer a three-year extended warranty with the purchase of a new unit delivered prior to June 30, 2012.

This is **\$1,300** in savings and includes two scheduled calibrations.

The ALT-8000 is the only available portable Radar Altimeter Test Set, testing FM/CW, CDF and Pulse type radios.

The GPSG-1000 GPS/Galileo portable static or dynamic position simulator simulates up to 12 SV's in real time. The GPSG-1000 fills the gap from low end single SV simulators to high end developmental simulators for all markets from recreational receivers to aerospace.

Please mention offer code: MB801
