

DOUBLE UP

Buy one. Get one.

Purchase an eligible Versiv™ kit by June 30, 2017 kit and get a second main unit and fiber camera free!

Versiv makes your team more productive, and for a limited time, you can double their productivity with a free main unit and camera. Just purchase an eligible Versiv kit and get a second main unit and fiber optic camera – a \$3,995 value – free!

A second remote unit lets your team do twice as much with their Versiv system:

- Certify copper cables and perform OTDR testing at the same time
- Test for loss and inspect fiber end faces at both ends of the link without moving the tester to the far end
- Certify fiber links for loss while troubleshooting failed links with the OTDR

Purchase by March 31, 2017 and Fluke Networks will add in a set of encircled flux test reference cords (a \$375 value*) or a multimode launch fiber (a \$310 value*).

*based on MSRP
