

Is your microplate washer ready for retirement?

Take advantage of Tecan's HydroSpeed™ introductory offer for ELISA, cells & beads-washing!

Dear customer!

This is your chance to take advantage of Tecan's introductory offer providing the HydroSpeed 3-in-1 configuration for ELISA, cells and bead washing in 96- & 384-well formats at a very attractive price for a limited time.

Tecan's HydroSpeed the next level of microplate washing for optimized results:

- Proven reliability via extensive quality benchmark tests
- Innovative Anti-Clogging™ function for prevention of needle blockage
- Extra-gentle Cell Protection™ wash settings for loosely adherent cells
- Efficient magnetic bead washing using dual powerful magnets per well

This limited time offer is a great deal for your money.
