

## Specifications

<b>Company Name</b>	Lumenis
<b>Model Name</b>	UltraPulse SurgiTouch
<b>Part Number</b>	0642-407-01
<b>Synopsis</b>	Premium CO2 Laser with SurgiTouch Automation System

### Technical Specifications

Wavelength	10.6 micron
Laser Power CW	60 Watt
Laser Power UltraPulse / SuperPulse	60 Watt
Weight	280 lbs
Dimensions	77 in (H), 14 in (W), 20 in (D)
Power requirements	120V / 20 A, 50/60 Hz
Fiber Compatibility	Not applicable
Delivery System Compatibility	<ul style="list-style-type: none"><li>• SurgiTouch Automation System</li><li>• Nasal &amp; Laryngeal Probes</li><li>• Oral Pharyngeal &amp; Nasal Handpieces</li><li>• Laser Bronchoscope</li><li>• OtoLam Ear Aeration System</li><li>• Focusing Handpieces</li><li>• CPG skin resurfacing scanner</li><li>• DeepFX fractional resurfacing scanner</li><li>• Micromanipulators: AcuSpot, MicroSlad, ColpoSlad</li><li>• Micromanipulator AcuSpot 712L/Z (world's only large aperture micromanipulator)</li><li>• Digital AcuBlade laryngeal (robotic) microsurgery system</li><li>• Laparoscope Adapters: Beam Align</li><li>• Laparoscopes: Single Puncture, Second Puncture</li></ul>
Cooling system	Self-contained, closed cycle
Safety approvals	UL, CE More than 120 cleared indications in the specialties of: Dermatology & Plastic Surgery Podiatry Otolaryngology Gynecology GYN Laparoscopy Neurosurgery Orthopedics General / Thoracic Surgery Dental / Oral Surgery
FDA clearances	Genitourinary
BME training	Held periodically at Lumenis headquarters
Clinical Training	Clinical Inservicing & Preceptorships
Service	Direct factory trained field service organization
International Manufacturing Standards	Distributed and sold worldwide
Special Feature	SurgiTouch Automation System
