

HARD AT WORK SINCE 1948.

THE BEST TOOLS FOR THE MONEY. PERIOD.

WANTED DEAD OR ALIVE

UPGRADE: To the Amprobe TIC 300 PRO with VolTect™

The New Standard In High Voltage Non Contact Detection

- Low Range Setting: 30 V ac → 1,500 V ac
- High Range Setting: 1,500 V ac → 122,000 V ac (TIC 410A Hot Stick attachment available)

Contact your local distributor and ask about the Amprobe Dead or Alive program to see if you qualify for promotional pricing.

Discard your original TIC 300 PRO or ANY old high voltage non-contact detector: Dead or Alive.

REWARD: Intuitive and reliable high voltage, non contact detection

Terms and Conditions:

Participating distributors may order additional TIC 300 PRO high voltage non contact detectors and TIC 410A Hot Stick accessories on the same PO.

Older high voltage non contact detectors must be immediately disposed of by the customer or Amprobe Representative.

Promotional pricing only applies to the TIC 300PRO and TIC 410A.

Distributors may call Amprobe Order Entry at Tel: 800.752.5717 for questions regarding this program.
