# Network+
### For Government Agencies and Contractors

# Strengthen Your Team with Network+ Certification

CompTIA
**Network+**

Government agencies employ CompTIA Network+ certified IT employees for improved network reliability and dependable operations.

"CompTIA certifications have not only boosted my salary, but have allowed me to progressively advance in my career as an IT professional at a young age."

ROBERT KOSYDAR, GOVERNMENT CONTRACTED SERVER SYSTEMS ADMINISTRATOR

## QUALIFIED EMPLOYEES
93% of hiring managers indicate CompTIA certifications are valuable.* The Network+ exam is vendor-neutral and confirms an individual's ability in the following competencies:

• Network architecture

• Network operations

• Network security

• Troubleshooting

• Industry standards, practices, and network theory

## RETURN ON INVESTMENT
Certifying your employees with vendor-neutral Network+ certification validates their IT networking skills and ensures your training budget provides a solid return.

## LOYAL WORKFORCE
84% of certified workers stay with their current employer, giving you the long-term benefits of a highly skilled workforce.**

## DIRECTIVE 8570.01-M
Network+ is approved by the U.S. Dept. of Defense to meet IA Technical level 1 certification requirements.

Certifying your staff with Network+ gives you a clear advantage over your competition.

## HIRING TOOL
A dependable network is essential to keep your workplace connected. Including Network+ certification as a hiring requirement ensures your IT employees are qualifed to build and maintain a reliable infrastructure for your agency.

# CompTIA Network+® Certification for Government Agencies

## Job Roles

- Network Field Technician
- Help Desk Technician
- Network Support Specialist
- Network Administrator
- Network Analyst
- Computer Technician

# Verified Networking Skills

The CompTIA Network+ certification exam includes both multiple-choice and performance-based questions that require each individual to perform in a simulated environment. Successful passing of the exam confirms capabilities in troubleshooting, configuring, and managing common network wireless and wired devices. Knowledge and skills include:

- **Establish** basic network design and connectivity
- **Understand** and maintain network documentation
- **Identify** network limitations and weaknesses
- **Implement** network security, standards, and protocols

## PREPARING YOUR IT PROS FOR TOMORROW'S TECHNOLOGY

CompTIA Network+ is developed and maintained by leading IT experts. Network+ certification is an international vendor neutral credential to validate foundation level networking skills and knowledge.

## HOW TO GET YOUR EMPLOYEES Network+ CERTIFIED

Your employees may enjoy the rewards of Network+ certification by following these steps:

**1. Choose a training option**

Prepare with instructor-led training, books, e-learning, boot camps, practice tests and more. Visit **Certification. CompTIA.org/training**

**2. Get familiar with the exam**

- Download the exam objectives
- Review sample questions from the exam

**3. Test**

Locate the Pearson VUE testing center nearest you to register for and take the Network+ exam. Visit **Certification. CompTIA.org/testing**

> "94% of HR managers expect IT certification to grow in importance over the next two years."
>
> CompTIA HR PERCEPTIONS OF IT TRAINING AND CERTIFICATION, 2015

*It is recommended that CompTIA Network+ candidates have at least nine months of experience in network support or administration, along with a CompTIA A+ certification.*
